

IT'S ABOUT A GOOD MEAL.

At Galvin Design Group, with every project, our design goal is to create an environment that will deliver an incredible experience for our client's customers. Most of the time, that means creating a place that's all about a good meal. Through sound, light and vision, we work to achieve just the right balance in which a great dining experience can occur. We hope you'll enjoy the Grand Bohemian Hotel and we are honored to have been the kitchen design consultant for this impressive facility. And, thanks to a great working relationship, we are proud to say we have been selected as the Grand Themes Hotel Group consultant of choice for all future projects. If you would like to explore the many benefits of working with Galvin Design Group, we invite you to visit our website at www.galvindesigngroup.com or call us at 407.654.8766.

The design resource for the food, hospitality and entertainment industry.
